

DUC HUY LE

Phone: (+84) 934 095 060 | Address: Ho Chi Minh City, Vietnam

Email: leduchuy271@gmail.com

PROFESSIONAL SUMMARY

Developer with hands-on experience building and maintaining web applications, REST APIs, and database-driven systems. Strong foundation in debugging, testing, and collaborative Agile development. Fast learner with high responsibility and strong problem-solving mindset.

TECHNICAL SKILLS

Programming: Javascript, Python
Frontend: ReactJS, Vite, Bootstrap, Responsive Design
Backend: NodeJS, ExpressJS, REST API development
Database: MySQL, SQLite (schema design, SQL queries, optimization)
Tools: Git, Postman
Cloud & Integration: AWS S3, Google Sign-in, AI model, API integration
Languages: English - B2 CEFR

EXPERIENCES

Power 5 Technology Company

Frontend & Backend Web Developer

Mar 2025 - Nov 2025

Thu Duc, HCM

- Developed responsive web applications using React + Vite + Bootstrap.
- Built RESTful APIs for content management, forms and external data integration.
- Collaborated with the team following Agile workflow including sprint tasks and debugging sessions.
- Tested APIs using Postman, fixed bugs and optimized backend performance.
- Implemented authentication system using JWT + bcrypt security.
- Maintained backend modules and improved SQL query efficiency.

Project Highlights:

- [Justivalaw.com](#) - Company website
 - Designed SPA architecture and implemented multilingual support.
 - Integrated real-time notification system via Telegram bot and Google Sheets automation.
- [gocnhinhthitruong.com](#) - Real-time Financial Market and Legal news
 - Built an automated data crawler using Python (8-hour intervals).
 - Integrated external financial APIs for real-time updates.
 - Structured backend modules for maintainability and scalability.
- Ebook platform (Design and Demo)
 - Implemented OAuth login system (Google Sign-in).
 - Built payment redirect flow for VNPAY.
 - Stored assets on cloud storage and synchronized with databases.
 - Developed admin dashboard for content and user management.

PROJECTS

AI smart task optimization (Local AI model)

Feb 2026 - now

- Github: <https://github.com/DucHuy2701/task-manager>
- Developed a Web application with AI recommendations for tasks.
- Integrated Ollama local model and prompt design for suggestions.
- Hands on AI prompt engineering to optimized queries.
- Currently optimizing prompts to deliver the best results.

FinEmo Coach (Local AI model)

Feb 2026 - now

- Github: https://github.com/DucHuy2701/FinEmo_Coach
- Developed a Web application for Financial management with Emotions.
- Integrated Ollama local model and prompt design for finance suggestions based on emotions.
- Focused on Prompt-engineering techniques to optimize results based on user needs.
- Currently optimizing prompts to deliver the best results.

Personal portfolio

Oct 2025 - now

- Link (Host on Vercel): <https://huy-dev-two.vercel.app/>
- Github: <https://github.com/DucHuy2701/my-blog>
- Built responsive developer portfolio SPA with optimized asset loading and clean UI architecture.

E-commerce platform

Sep - Dec 2024

- Github: <https://github.com/DucHuy2701/JavaSpringBoot>
- Developed a full-stack system using Java Spring Boot + MySQL.
- Designed REST APIs for product management.
- Implemented MVC architecture and database relations.

EDUCATION

Bachelor of Engineering in Information Technology

2017 - 2025

Industrial University of HCM City

Completed mandatory Military service (2 years)
